

An Unnatural Life Span

Slaughtering animals when they are babies is standard, whether they're raised conventionally or in operations that are labeled "humane," "sustainable," "natural," "free-range," "cage-free," "heritage-bred," "grass-fed," "local," or "organic."

	Slaughter <i>F</i>	Age	vs.	Na	tural	Life Span	TL.
"Veal" Calves	1-24 weeks					15-20 years	
Chickens ("Meat" breeds)	5-7 weeks				Ul	p to 8 years*	
Ducks	7-8 weeks					6-8 years	
Rabbits	10-12 weeks			•		8-12 years	
Goats	12-20 weeks					12-14 years	
Geese	15-20 weeks	6				8-15 years	
Turkeys	4-5 months				Up	to 15 years*	
Pigs ("Meat" breeds)	6 months	_	_	_	•	10-12 years	777
Lambs	6-8 months	_	_			12-14 years	
"Beef" Cattle	18 month	าร	_	•	•	15-20 years	
Chickens (Egg layers)		1-2 years			U	p to 8 years*	
Pigs (Breeding sows)		3-	5 years			10-12 years	
Dairy Cows		4 years				15-20 years	11

*Most chickens and turkeys are bred to grow so fast that their bodies cannot endure very long. When not bred for consumption, chickens and turkeys can grow at a rate their bodies can sustain for many years.
